CONTENTS

Research Articles

*Food Sciences

Evaluation of red pigment extracted from purple carrots and its utilization as antioxidant and natural food colorants
M.T.M. Assous, M.M. Abdel-Hady and G.M. Medany ................................................................. 1

Enhancement of quality attributes of canned pumpkin and pineapple
M.T.M. Assous, S.E.M. Saad and A.S. Dyab .................................................................................. 9

Hypolipidemic effect of fat spreads containing flaxseed oil

Microstructure and textural properties of Kareish cheese manufactured by various ways
G.A.M. Hussein and S.M. Shalaby ............................................................................................... 25

Effect of freezing on the pungency and antioxidants activity in leaves and bulbs of green onion in Giza 6 and Photon varieties
E.M. El-Hadidy, M.E.A. Mossa and H.N. Habashy ........................................................................ 33

Suggested treatments for processing high nutritive value chicken burger

Fatty acid profile, antioxidant activity of various suggested chicken burger treatments

Characterization of carotenoids (lyco-red) extracted from tomato peels and its uses as natural colorants and antioxidants of ice cream
E.M. Rizk, A.T. El-Kady and A.R. El-Bialy .................................................................................... 53

Total phenolic contents and antioxidant activities of various solvent extracts from whole wheat and bran
S.S. Abozed, M. El-kalyoubi, A. Abdelrashid and M.F. Salama ..................................................... 63

Effect of citric acid, calcium lactate and low temperature prefreezing treatment on the quality of frozen strawberry
M.M. Abd-Elhady ......................................................................................................................... 69

*Agric. Economics

The partial budget analysis for sorghum farm in Sinai Peninsula, Egypt
S.M. El-Deep ................................................................................................................................. 77

The economic evaluation of extension activities in forage crops production in Sinai Peninsula, Egypt
A.A. El-Skyd and S.M. El-Deep .................................................................................................... 83

达尔南科学学会

土壤科学
A comparison study on the effect of some growth regulators on the nutrients content of maize plant under salinity conditions
R.T. Rashad and R.A. Hussien ................................................................. 89

植物微生物学
Improving the productivity and quality of black cumin (Nigella sativa) by using Azotobacter as N2 biofertilizer

影响两种菌株和硫氧化细菌对洋葱 (Allium cepa L.) 和玉米 (Zea mays L.) 在沙土中的生长质量

植物保护
Population fluctuation of some insect pests infesting sugar beet and the associated predatory insects at Kafr El-Sheikh Governorate

Effect of certain entomopathogenic fungi and nematode on the desert locust Schistocerca gregaria (Forskal)
N.A. Youssef ........................................................................................................ 125

植物学
Physiological and biochemical studies on drought tolerance of wheat plants by application of amino acids and yeast extract
S.A.R. Hammad and G.A.M. Ali ......................................................................... 133

遗传学
Diallel analysis and separation of genetic variance components in eight faba bean genotypes
Z.E. Gharieb and A.G. Hidai ........................................................................... 147
